SUMMARY

I am a self-taught front-end developer who has been learning for 4 months from youtube and udemy tutorials. I don't have years of experience, I have not had opportunities to use them in professional capacities but I have used them in a bunch of personal projects that you can see in my Github, and I would like to show you where I am specifically using these technologies that you are requesting. <u>If this job is not the perfect fit for me, I am open to any other positions you may think better fits my skills set.</u>

SKILLS

- HTML
- CSS
- JAVASCRIPT
- SCSS/SASS
- Jquery

- Bootstrap
- WordPress
- Photoshop
- Git
- Github

CAREER GOALS

A self-motivated, creative, and ambitious to become Full Stack Developer in the next 3 years. To achieve this, I will refine my development skills, become Back End Developer, gain understanding of software development lifecycle best practices, and develop expertise in web development tools.
